# Marfan's Syndrome

Category(ies): Cataract
Contributor: <u>Jordan Graff, MD</u>

Lens subluxation is readily evident in this dilated view of a patient with Marfan's syndrome.

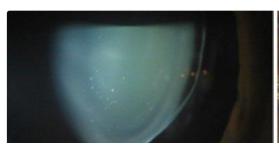

🕰 Enlarge 🕹 Download

This close view of the subluxed lens allows visualization of the zonules.

Both lenses are seen here, side by side. Supero-temporal dislocation of the lens is evident in both eyes.

**Q** Enlarge

Classically long, thin fingers and "double-jointed" hands are additional hallmarks of the disease. Both lenses are seen here, side by side. Supero-temporal dislocation of the lens is evident in both eyes.
